

Nurudin Adow

Front-End Developer

EXPERIENCE

edX

Front-End Web Developer | 11/2023 – Present

- Currently enrolled in a 16-week Bootcamp in Front-End Web Development where I am acquiring in-depth skills in API utilisation, UX design, and the creation of web applications. The bootcamp places emphasis on honing skills in HTML5, CSS3, Javascript, jQuery, React.js, Node, and Git. As part of the program, I am gaining hands-on experience in industry-standard programming practices, including agile development, version control, and project management

SSI Schaefer

IT Application Support Technician | 05/2022 – Present

- Provided support to a wide array of global clients, including H&M, Jaguar & Land Rover, Coca Cola, Pfizer, Prettylittlething, M&S, and numerous others
- Successfully resolved 90% of customer tickets without escalation to the second line
- Leveraged my proficiency in Norwegian to assist customers in the Nordic region, enhancing and fortifying our business relationships
- Conducted thorough log file analysis in a Linux server environment to identify root causes, effectively reducing recurring issues
- Developed SQL scripts for the team to modify customer records based on specific criteria, improving the team's efficiency in handling customer requests
- Conducted failover tests for diverse clientele, ensuring smooth transitions and minimal disruptions during system failures
- Created various knowledge-base articles in Confluence, providing essential information to team members and ensuring regular updates to reflect changes
